Humanscale®

QuickStand®
Under Desk

The revolutionary QuickStand Under Desk allows users to seamlessly adjust between sitting and standing postures without interrupting workflow. Available with Humanscale's M2, M8 and M/Flex monitor arms in single or dual monitor configurations, QuickStand Under Desk's innovative counterbalance mechanism is enclosed within a central column beneath the desk surface. Helping to maintain a clean visual aesthetic thanks to built-in cable management, QuickStand Under Desk allows for unobstructed views throughout an entire office when in the sit position.
