

**Intuitive, scalable, and cost-effective, ergoIQ is the next generation of online ergonomics software.**

### **SELF-ASSESSMENT**

ergoIQ is an intuitive online self-assessment tool that enables employees to quickly configure their workstations for optimal health and comfort.

### **PROGRAM MANAGEMENT**

Streamlines the ergonomic assessment process by automating equipment approvals and simplifying equipment procurement.

### **DATA ANALYSIS**

Tracks aggregate fit scores, self-assessment utilization, equipment recommendations and overall improvement levels.

## **Why ergoIQ?**

### **UNPARALLELED EASE-OF-USE:**

Modern intuitive user interface requires no training

### **ONLINE AVAILABILITY:**

No need to download or install software

### **ADAPTABLE:**

Easily modify facilities, equipment specifications and approval workflow

### **COST-EFFECTIVE:**

Reduces costs up to 90% over traditional on-site assessment programs
