Tech Tray

Designed to accommodate the growing use of portable technology in the workplace, including laptop computers, tablets, e-readers, cell phones, MP3 players and more, Humanscale’s new Tech Tray offers a simple solution for technology access and storage. Sized to easily hold a laptop with docking station, the Tech Tray helps organize and optimize a workspace by getting technology off the desk. Even better, it keeps technology out of sight, out of the way, and safe from that spilled cup of coffee. And paired with Humanscale’s Keyed Security Lock, it will minimize the risk of theft.

Features & Specifications
- Large platform accommodates all portable technology
- Under-the-desk track provides easy access or convenient stowing
